

Concentrated suspensions

A b s t r a c t

Novel suspension concentrates comprising

- a) at least one active compound, solid at room temperature, from the group of the azoles and/or the strobilurins,
 - b) at least one penetration enhancer from the group of the alkanolethoxylates,
 - c) at least one dispersant from the group
- 5 of the polymers of methyl 2-methyl-2-propenoate and α -(2-methyl-1-oxo-2-propenyl)- ω -methoxypoly(oxy-1,2-ethanediyl),
- the tristyrylphenoethoxylates and/or
- the propylene oxide/ethylene oxide block copolymers having molecular weights between 8000 and 10 000,
- 10 d) water and also
- e) additives, if appropriate,

a process for preparing the novel suspension concentrates and their use for applying the active compounds comprised therein to plants and/or their habitat.
